Michigan Trust Company Asks for a Restraining Order

AGAINST THE MORTGAGEES

In the Nelson & Matter Failure-An Order issued to He Enforced Until an Inventory is Taken.

The Michigan Trust company began suit yesterday against Enus Putman, Fara T. Nelson and Fred H. Smith. In ica bill the company alleges the follow-icas That Nelson & Matter are the owners of a large amount of real and personal property, that on Septem-for 9 the firm made an assignment to the Michigan Trust company, that on heptember 8 Nelson & Matter filed a enattel mortgage for \$8,000 to Erra T. Nelson and Fred H. Smith, that said neerings gave them the right at any time they deemed themselves insecure, to enter upon the premises and sell the lumber in Neison & Matter's lumber yards, that on September 8 a chattel neerings was given to Ence Putman for \$102,721.00. That on the same day Nelson & Matter executed a real Relson & Matter executed a real estate mortgage to Mr. Putman for the same amount as the chattel mortgage, that the property carried by these mortgages covers the same property covered by the assignment afterward made to the Michigan Trust company; that the machinery and fixtures, if taken from the factory building would be comparatively raturiess, and that it is necessary to keep all the property together to get the highest price for it; that the unsecured creditors cannot form an estimate cured creditors cannot form an estimate cursi creditors cannot form an estimate of the value of the personal property until an inventory has been made. The complianment therefore asks for an injunction restraining the defendant from taking possession of any of the property mentioned in the mortgages given to them. Judge Grove issued a restraining order until the matter may be heard in

Opening of September Term.

The September term of the superior court opened yesterday merning, and the forenoon was consumed in calling the calendar. In the afternoon a dozen criminals were brought over from jail and arraigned, and their trials set down for such time as will be convenient. he calendar is a small one, and unless many additional cases come up from po-lice court the term will be a short one. Three men pleaded guilty and were sen-fenced to prison. They were S. E. Ailen for one year, Alfred Washington for four years and Augustus Lawler for

Confessed His Guilt.

In 1802 the salcon owned by Frank Bonnell and run by Frank Latta was burglarized and \$357 was taken. Appeal in the Leonard Case.

Charles H. and Frank E. Leonard courtes it. and Frank E. Leonard ided an objection to the report of the commissioners appointed by the probate court to look into the condition of the estate of Frai H. Leonard. They claim that the item of \$7.314.31 as Fred's share of the profits for the present year is wholly erroneous as the business has been run at a loss. They ask that an order on the basis of an unsuccessful year be made and that they be forced to stand only their share of the less.

Court Notes.

Margaret L. Haines has filed an ob-jection to the report of Hiram Collins as special administrator of the estate of ames H. Brown. She objects to a large number of items in the account, and asks that Mr. Collins be held responsible for certain notes, which he has not collected. The parents of Mrs. Theresa Horton

OUR BOYS' SAFETY.

A Splendid Machine That Is Offered Free for Sixty Herald Subscribers.

for Sixty Herald Subscribers.

The Young America 815 Long Distance Safety is made of steel and wood so combined as to secure the lightest and strongest machine. The frame and wheels are made from the best quality second-growth hickory, which is selected instead of steel for these parts because it combines great strength and toughness with lightness.

An all-steel machine made heavy erough to withstand the hard usage to which it is subjected is so heavy as to be a serious drawback to its universal use by young people. Again, the steel machines, without the greatest care being taken to keep them clean and dry, soon become rusted and therefore easily broken; whereas a machine made of steel and wood will not suffer from exposure any more than a carriage

steel and wood will not suffer from exposure any more than a carriage

A hickory framed and wheeled safety is not only more durable and lighter, but it is much more elastic, and the loss of the vibration and rigidity found in the all-steel machines makes these steel and hickory machines more comfortable for riding than any other machine made. The cushloned seat is suspended on our patented spiral spring, adjustable to varying heights and weights, and this, in combination with the hickory frame, makes the easiest possible riding machine. The sprocket wheel chain is porfectly adjusted, so as to utilize the full amount of power expended, and is made so strong as to be practically unbreakable. The patented head, found only on this machine, is a triumph of American ingenuity, and makes the wood and can ingenuity, and makes the wood and steel conjunction perfectly strong and firm. For these parts only the best imported weldless steel tubing is used. The rubber cushion tire is secured to the wheel rim in such a manner that it is the wheel rim in such a manner that it is guaranteed not to become detached or loose. The wheel bearings are a brass collar so delicately adjusted to the steel shaft as to reduce the friction to a minimum, and render the usual ball bearings superfluous. The principle upon which they are made is the same as is used in constructing heavy machinery, where the greatest amount of work must be secured from the least expenditure of power. The entire machine penditure of power. The entire machine is finished with a heavy coat of glossy black enamel, making a finely finished solid surface, which, when lightened up solid surface, which, when lightened up by its delicate striping and nickeled head frame, makes a most beautiful ma-chine, which for tasty appearance as well as positive durability and general wearing qualities is absolutely unexcel-led, if equaled, by any machine offered. The quality of materials used and the workmanship are fully guaranteed in every particular. Read The Herald's add, to learn how to get a machine free.
